

Ashland

Large Capacity Grease Interceptors

The **Ashland APCI Series Grease Interceptor** is designed to separate grease, oils, fats and other sediment from large Commercial and Industrial sources. Made of High Density Polyethylene (HDPE), the APCI series interceptor is lightweight, cost efficient, extremely durable and corrosion free. Non skid 3/4" poly covers with recessed handles are standard, but all units are available with steel non-skid tread plates for traffic areas. The HDPE construction is acid resistant and solids do not easily adhere to the smooth walls, making cleaning effortless.

Options Include:

- Above or below ground installation
- 1/4" Steel Cover for pedestrian traffic
- Integral Extension.
- Sediment Basket
- Optional Connection Sizes 2, 3, 4, 6 inch
- PVC glued connections are standard.
- HD Braces for above ground installation.

Special sizes available to fit through narrow passages or existing walkways. Special units also available to meet larger capacities, including systems that utilize series and/or parallel interceptors. Straight through, left, and right hand models available.

DIMENSIONS & SPECIFICATIONS (B = Width - All dimensions approx. due to plastic variances)

| Model Number | | APGI-100 | APGI-150 | APGI-200 | APGI-250 | APGI-350 |
|---|------------|----------|----------|----------|----------|----------|
| Flow Rate G.P.M. | | 100 | 150 | 200 | 250 | 350 |
| Grease Capacity (lbs.) | | 250 | 375 | 500 | 625 | 850 |
| Approximate Dimensions (inches) | Length (A) | 53 | 65 | 53 | 77 | 77 |
| | Width (B) | 29 | 28 | 41 | 41 | 41 |
| | Height (C) | 32 | 38 | 49.5 | 49.5 | 61 |
| Bottom of Unit to center of Inlet/ Outlet (D) | | 24 | 31 | 42 | 42 | 53 |
| Bottom of Unit to center of vent | | NA | 34 | 45 | 45 | 57.5 |
| Vent Connection (in.) | | NA | 2 | 2 | 2 | 2 |
| Approximate Weight (lbs.) | | 200 | 350 | 425 | 475 | 650 |
| Standard Inlet/Outlet (in.) | | 3" | 4" | 4" | 4" | 6" |
| Liquid Holding Capacity (gal) | | 112 | 180 | 300 | 405 | 560 |
